

EXO.AR I: 1st Argentinian Workshop on Exoplanets
"Observations and data analysis"

October 30 – November 2, 2017, International Center for Advanced Studies (ICAS),
San Martín National University, Buenos Aires, Argentina

FIRST CIRCULAR

We are pleased to announce the "EXO.AR I: 1st Argentinian Workshop on Exoplanets - Observations and data analysis" to be held at the International Center for Advanced Studies (ICAS) of the National University of San Martín located in the suburbs of Buenos Aires, Argentina, from October 30 through November 2, 2017. This first meeting aims at enhancing interactions between members of the local exoplanet community and international experts on planet detection and characterization, the effects of stellar activity on planetary signals, and the characterization of exoplanet host stars.

In addition to talks by invited speakers, participants will have the opportunity to present their work through oral contributions.

For more information, visit the workshop website <http://www.iafe.uba.ar/exoar>, which is updated regularly. We hope to find you among the participants!

PRE-REGISTRATION

In order to guarantee an efficient organization of the event, we encourage all the interested people to complete [this form](#) by July 14, 2017. Due to space limitations, the number of attendees will be capped at 45.
